[TK description]
Learn more about the general adoption process.
Dogier's regular adoption application process involves the following steps:
1. Let's get to know each other. Fill out the adoption application and pre-interview questionnaire.
2. Interview. If the application is a good match, we'll reach out for an interview.
3. Meet and greet. You (and all members of your home) will have a chance to meet the dog.
4. Adoption offer. If all parties decide it's still a good fit, you'll be sent the adoption contract to review and sign. This is also when you'll pay the required adoption fee.
5. Make it official. After the necessary paperwork is complete, we'll arrange for you and the foster family to meet, so you can bring your new pup home!
Fill out an application to adopt [TK name of dog] at dogier.com.
