BIOLOGY LAB REPORT

Purpose/Question

What is the purpose (question/problem) of the lab? What is the learning objective?

Hypothesis

Make sure to write an alternate and null hypothesis. (Ha, Ho, < >, =, ≤, legend, etc).

Materials & Methods

Write the procedure for what you did in paragraph form.

Data Collection

Record measurements in neat, well-organized data tables.

Data Analysis

Record all calculations/manipulations of the data collected. Includes data uncertainty analysis.

Conclusion

Each student should share responsibility for the calculations.
