Classroom Newsletter

November Edition

What We Learned

This month was packed with discovery! In math, students mastered fractions with fun games. Our reading sessions explored captivating folktales, sparking thoughtful discussions. Science experiments on water cycles brought excitement, and history lessons delved into early civilizations.

Upcoming

Next week, we're diving into multiplication strategies and starting a new book, Charlotte's Web. Look out for the art project inspired by our history unit.

Reminders

Library books are due every Wednesday, so double-check backpacks! Finally, please send in the field trip permission form by Monday.
