ABOUT TRAVEL

Planning to visit Grandma's for Thanksgiving or spend Christmas in Rome? Holiday travel can be notoriously busy, expensive, and stressful, but the news isn't all bad. There are still deals to be found, provided you shop carefully and plan ahead.

"At Thanksgiving, Wednesday is the critical outbound "avoid" day as a rule. Traveling on Thanksgiving Day is often a breeze and more affordable, and if you can fly home any day other than Sunday, you'll likely pay less."

TRAVEL HOLIDAY!

The activities vary, the environments vary, the budgets vary but the feeling of truly being alive remains the same among these adventure tourism destinations.

WHY PEOPLE CHOOSE OUR SERVICE?

Well, I feel I sorta already addressed that with the whole 'combatting the existential abyss inside your soul' thing but, yeah, there are other reasons too.

It's about the challenge. Sure, the advent of the adventure tourism industry mitigates the challenge somewhat (see the above example of Mount Everest) but it's still an adventure – it's in the name, after all!

And it's your adventure! Take it as far and as dangerous as you like. You do you. It's about growth: growth through hardship. Learning to take things in stride. Learning that things, most of the time, will be ok.

PERFECT HOLIDAY

The adventure keeps us alive – without it, we stagnate. We work our 9 to 5 so we can come home afterwards, cook dinner, binge Netflix on the couch with our significant other, and then – if we're lucky and not too tired – a banal quickie before we hit the sack.
