Summary

Project finance associate with 3+ years' experience working in solar and onshore wind across Latin America. Passionate about climate resilience and expanding equitable access to power. Seeking broader leadership training and a global investor network to launch a climate-focused investment platform.

Education

Pontificia Universidad Católica del Perú — Lima, Peru
Bachelor of Arts, Economics — 20XX

- Top 5% of class
- Exchange year at UC Berkeley
- Coursework: Corporate Finance, Energy Economics, Environmental Policy, Financial Modeling

Experience

Andean Infrastructure Partners — Lima, Peru
Associate, Project Finance — Aug 20XX – Aug 20XX

- Modeled and closed $680M in non-recourse debt across 4 projects (1.1 GW); coordinated lenders, sponsors, advisors, and EPCs through IC and financial close
- Designed a merchant-tail risk framework (capture rates, price cannibalization, DSCR buffers) that cut lender haircuts by 120 bps, expanding debt capacity by ~8%
- Led E&S due diligence to IFC Performance Standards; built mitigation plans on biodiversity offsets, community engagement, and labor audits

Banco de Crédito del Perú — Lima, Peru
Analyst — Feb 20XX – Jul 20XX

- Built three-statement and project finance models for wind/solar transactions (≈450 MW pipeline), including base/merchant downside cases and covenant headroom analysis
- Prepared lender IC memos and coordinated financial, technical, and E&S due diligence with external advisors; standardized checklists that reduced closing timelines by ~10%
- Developed a VBA tool to automate quarterly covenant testing across 12 SPVs, cutting reporting time by 25% and improving data quality controls

Leadership & Activities

Climate-Finance Reading Group — London, UK
Co-Chair — Aug 20XX – Aug 20XX

- Worked on development initiatives for 3 global clients, developing expertise in risk management and organization transformation
- Conducted market, competitor, and financial analysis to test client hypotheses and prioritize strategic options

Skills

- Advanced Excel & project finance modeling, VBA, Power BI, basic Python (pandas), PPA structuring
- IFC Performance Standards, E&S screening, data-room management, IC prep
- Spanish (native), English (fluent), Portuguese (fluent)
