VPN app	☐	Garbage pickup	☐
Netflix/Disney/Hulu apps	☐	International telephone plan	☐
Weather app	☐	SIM card (if phone unlocked)	☐
Email app	☐	Order foreign cash from bank	☐
Car rental app	☐		

Notes:

* When staying at Airbnbs, some international hosts tend to use Whatsapp as a way to communicate vs using the Booking/Airbnb app. This is a free app you can attach to your phone number and is free to use when traveling internationally.
* Airlines and train schedules can change quickly. If you download their app, you can stay abreast of the time changes and delays. Some airlines require you to pre-check online using their app.
* A Virtual Private Network (VPN) is a way to establish a protected network connection when using public networks on free wifi spots. It encrypts your activity on the Internet and keeps your identity hidden. This is especially helpful when using free wifi and you want to check your banking information online. Norton, Surfshark, NordVPN and others provide this services for a charge.
