Let's do the therapeutic way
Calming hot stone
Brisco provides calming hot stone massage, a type of massage that relaxes the body with a use of smooth heated basalt stones.
Mindful massage
Mindful massage is one of the massage services that Brisco offers. It has been around for ages, and has its origin in different Asian traditions. This type of massage can help decrease anxiety and stress, and at the same time increase emotional intelligence and resilience. Moreover, it is not just a regular massage. It is when a therapist is present and is fully connected to the client. This is about what the client needs and their body is reacting to different techniques in achieving mindful massage experience. It is not just how the body is reacting, it also involves the room temperature, ambience, the type of music being played in the background.
